AIE/DOE Forum | *Werner Betzenbichler* | 17/18 Mar 2016

JISC-38
Relations with the AIE/DOE Coordination Forum

Topics

- **Annotated agenda, Annex 1 –**
  Concept note: Measures to address issues arising from DOEs acting as AIEs

- **Annotated agenda, Annex 5 –**
  Concept note: Input from the Joint Implementation Supervisory Committee to CMP12

AA-Annex 1 – DOEs acting as AIEs

- So far only a hypothetical issue
- Around 50 % of responding entities will apply for this option
- One entity requests an explicit clarification whether the timeline for the appraisal and review of submission by DOEs acting as AIEs will follow the JI guidelines; this seems not to be clear enough within the concept note

AA-Annex 5 – Input to CMP12

- Wish to put more emphasis on the role of AIEs and their expertise developed over the past 15 years, in particular with regard to:
  - the evaluation of conformity of activities implemented by host Parties;
  - the existing structure, resources and systems that would enable the operationalizing of international oversight;
  - established procedures according to the accreditation rules to enhance transparency;
  - the independence of national interest and influences by globally acting entities;
  - their readiness as part of the existing infrastructure.

Thank you for your attention!

Werner Betzenbichler
Chair of the AIE/DOE Coordination Forum
